## NEW BUILD UPDATE EAST

### SPRINGWELL EAST SITE – OPENING JANUARY 2018

Interior walls have been erected and the exterior is ready for the cladding. The first of our beautiful new schools is really taking shape. How exciting!

The immersive spaces are in place and almost complete. These pictures don't really capture the true size of these amazing spaces.

The seating area in the Main Hall has been installed.

## NEW BUILD UPDATE SOUTH

**SPRINGWELL SOUTH SITE – OPENING APRIL 2018**

Springwell South is really coming along. With the exterior framework now complete and the roof well on its way to being finished. The South site is the biggest of our 3 new schools. As you can see from the aerial photographs, we have lots of outdoor space for sports pitches and courts.

## NEW BUILD UPDATE NORTH

### SPRINGWELL NORTH SITE – OPENING SEPTEMBER 2018

Mr Jacques, paid the Springwell North site a visit last week. Here are just a few of the photographs that he took on his visit. As you can see, the site is really taking shape with the groundwork in place and the frame ready to go up.

The diggers and cranes are on site at Tinshill and work has started to erect the steel framework and concrete walls.

The third of our new Springwell builds, Springwell North is beginning to look like a school!
